DETAILED ACTION

Note: In claim 11, line 10, a period at the end of the sentence is shown. There is a continuation of claim language that follows that appear to be still related to claim 1.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, claim 5

Species II, claim 6

Species III, claim 7

Species IV, claim 8

Species V, claims 9 and 10

Species VI, claims 11 to 16

Species VII, claim 17

Species VIII, claim 18

Species IX, claim 19

Species X, claim 20.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 to 4 are generic.

Applicant is advised what a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument

that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander O Williams whose telephone number is (703) 308 4863. The examiner can normally be reached on M-F 6:30-7:00PM.
